Vector artwork should be retained in vector format where possible. However, please convert text to outlines to avoid font problems with vector graphics.

Data format should be Binary where applicable (not ASCII).

All PDF files must be created using Acrobat Distiller, not from the software used to create the artwork.

PDF files: please embed/include all fonts when creating the PDF. Colour mode should be CMYK. Resolution should be 300dpi where bitmap images are included. For full page artwork please include printer's marks (crop marks) and set 5mm bleed when creating PDF file, with paper size in print dialogue box set to W: 235.4mm and H: 322.4mm.
